# The History

Set in the heart of a forest, in a wooded and protected environment, just 5 minutes from Cannes and its famous Croisette, the Cannes-Mougins Golf Club is a unique and unmissable venue.

In addition to its Club House, a former oil mill built entirely of ancient stone,

it's the course itself that stands out. Created in 1923 by illustrious founding members, the club has never stopped reinventing itself to become the most beautiful course on the Côte d'Azur.
